1 [Adapting MASCOT Methodology to Software Performance Engineering using Object-Oriented Simulation](#)

Onofre Munar, Carlos Juiz

 March 2003 **Proceedings of the 36th annual symposium on Simulation**

 Full text available: pdf (140.56 KB) Additional Information: [full citation](#), [abstract](#), [index terms](#)

European Defence companies have used MASCOT methodology in weapon system projects for real-time embedded software development. This method has been used for at least twenty years and it is still their primary design and development method. On the other hand, the intersection of Software Engineering (SE) and Performance Engineering (PE) has made a new topic: Software Performance Engineering (SPE). This paper presents a performance component-based system design technique based on an extended MASCOT model ...
